

## Please review the following instructions & tips before applying:

1. Click on 'View Open Positions' to search our current openings and to apply online (please note that our current jobs site is not compatible with the Windows 8 operating system).
2. Before you apply, you will be asked to create a user name and password. Make a note of this information so that you can return to our site to view your application status.
3. Incomplete applications may not be considered, so please complete all relevant fields to the position for which you are applying (e.g. employment history, education, etc.)
4. An accurate and complete application is key. All information provided during the application may be verified during the pre-employment process. Please do not submit any application information that is not truthful, accurate and cannot be verified.
5. As part of the application process, you will be asked to review information and respond to a series of questions, in addition to providing your employment history and application information. The process should take approximately 20-30 minutes.
6. You will receive an automated confirmation each time you successfully submit your resume for an open position. If a recruiter or hiring manager wants to discuss next steps, they will get in touch with you using the contact information from your profile or resume.
